Director's Corner:

Read Across America- March is ending and we are celebrating in each class the number of books that have been read! With each child's Reading Log of ten books, we are proud to say we ended up with over 1400 books read to the children in our school! With bells ringing, we have enjoyed the excitement! What a lifetime gift to instill the love of books. Thank you for participating. Happy Reading!

Parent/Teacher Zoom Conferences- As you are notified by your classroom teachers, be sure to sign up for a time for your conference. The teachers have completed a Progress Report and will be sharing that with you. It is a wonderful way to see what areas of growth become the focus of the preschool years. It has been a pleasure getting to know your children and it is exciting to partner with you. A solid foundation in these early years is key to their success in their educational journey.

Parents in to Read – We have come a long way! With a month into options of masks and beginning to see each other's faces, what a joy to invite you, the parents, back into the classroom to read to your child's class. Each classroom teacher will communicate how this can be scheduled. We are hoping to provide an opportunity for each of you in the weeks left of this school year.

CPC Sunday Service May 15th at 10:00 am -Traditionally each spring, though like all else that was been on hold these past two COVID years, the CPC Church community provides a Sunday to stop and Thank all Teachers with the focus clearly on our own here at CPC. All school families with your children are encouraged and welcome to attend. It is always a

heartwarming service and special morning. This year, they will also use this Service to thank me personally and recognize my 22 years as Director as I retire from that position. Honored and humbled by this focus, I am looking forward to this time to unofficially say good-bye. It has been a long and rewarding career and the relationships I have fostered with families through the years have brought me some of my greatest joy! The teachers that do all the work to make this school successful will be celebrated, which makes this the perfect day! I look forward to seeing you there.

New Director announcement will be forthcoming in the very near future from the CPC WNS&K Advisory Board. They have taken on this task with professionalism and grace working countless hours to secure the best candidate. I know the school will be in loving, competent hands and the school will continue to thrive!

With the holiday coming soon, I wish you smiles, laughter and a joyous Easter!
